Automotive in Umbria

- ✓ With a view to promote Umbrian automotive companies on foreign markets as a single entity, made of multiple companies and expertise.

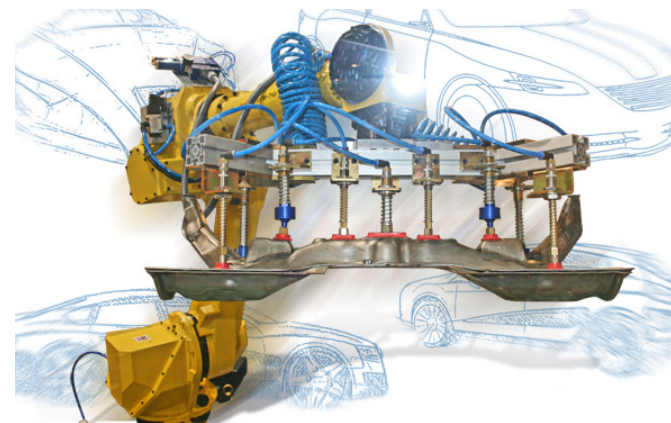

Automotive in Umbria

- ✓ There are over 40 highly specialized automotive companies in Umbria
- ✓ Combined income of over € 720 million
- ✓ Over 3,400 direct workers, plus sub contractors
- ✓ Average income produced per worker = € 200 thousand

Automotive in Umbria

- ✓ Production of industrial vehicles, special duty vehicles, trailers and semitrailers, special settings, coach and commercial vehicle chassis
- ✓ Production of components and machining of special steel, cast iron and special alloys for motor vehicles, scooters and motorcycles
- ✓ Design, production and installation of special paint works
- ✓ Laser and special weldings

Automotive in Umbria

- ✓ **Meccanica di precisione con trattamenti (taglio, saldatura, curvatura, ecc.) al laser, plasma, galvanici e termochimici**
- ✓ **Industrial washing systems for metal parts and components**
- ✓ **Testing machinery in controlled or replicated climatic conditions**
- ✓ **Production of telecommunication systems such as infomobility and wireless devices**

Automotive in Umbria

- ✓ Today's meeting is therefore particularly important to understand and further cooperation between Umbrian automotive expertise and the opportunities which the expanding Russian market (which will soon become Europe's primary market) presents.
